Product Summary

Universkin Serum P Eye Contour - 15ml

Universkin Serum P Eye Contour is a multi-purpose soothing serum developed and tested for the sensitive area around the eye. universkin serum P EYE CONTOUR is a patented formula with great efficiency and is characterized by a milky, nude and light texture - an intelligent combination in perfect harmony with your skin:

- Camelina oil, the perfect ingredient to allow the skin* to produce natural anti-inflammatory compounds, the Omega-3** - Biomimetic peptides complex P developed by universkin®; containing a unique combination of 4 peptides, that are biological messengers for the physiological balance of the skin* - Hyaluronic acid optimized to maintain the proper functioning of the extracellular matrix

The effective basis is a high-tech vector that allows to integrate pure active ingredients at concentrations decided by the practitioner in respect of the regulatory framework. The newly developed viscosity and the safety evaluation*** allow a certified compatibility with universkin®; micro-permeation stamp device.

Product Description
